CHINA'S SPECIAL AMBASSADOR TO CORONATION

COL. SLEEMAN BIDS FAREWELL

Tribute To Ambulance Brigade In Colony

Colonel J. L. Sleeman, C.B., C.M.G., C.B.E., M.V.O. Chief Commissioner St. John Ambulance Brigade Overseas, left Hong Kong on Saturday in the S.S. "Ranchi." His original intention was to proceed direct to England, but on Friday he received a cable from the Malayan Government asking him to re-visit Singapore in order to assist with its ambulance problems, acceptance of which will depend upon instructions from the Grand Prior of the Order of St. John.

During his fortnight stay in Hong Kong Colonel Sleeman has fulfilled over forty duties, including two visits through the New Territories and a stay in Canton so that he has been kept more than fully occupied.

In an exclusive interview with "The Daily Press," on board the S.S. Ranchi, Col. Sleeman said:—"It is with the deepest regret that I leave Hong Kong; for truth compels me to say that I have been kept so busily employed with all the innumerable good works which the Order of St. John is doing, that I have seen little of the Island and of those outside the ambulance movement. Time was not even afforded me in which to visit friends in the City, or to accept many other offers of kindly hospitality. However, I came here to work, and have, in that respect, not been disappointed.

I am glad that the Press came out with the general policy of the British Government to render Hong Kong impregnable; while particularly glad that the term has again been applied to this strong determination. For impregnability and efficient ambulance service in modern war must be linked together. The days are over when battles were fought between fighting forces, and the civil populations waited behind in comfortable, if anxious, security. Neither, unfortunately, does it require immense power of imagination to visualise what will happen if war should ever come to Hong Kong; for—interior as are the aeroplanes engaged in the Spanish war, to those which may be expected to operate in a war of any magnitude, the bombing of Durango on April 1, resulted in the killing and wounding of hundreds of civilians; women, children and men. One British General, only, saw the war in Abyssinia, General Fuller—one of the rare few to see the value of the tank in the days of trench-warfare stagnation. In the Great War. Since his experience there he is confident that from the outset of the next war an aerial concentration of effort will be directed by hostile forces upon civil populations in an endeavour to panic them, and to shatter all which makes for existence possible; reservoirs, supply centres, power plants, wharfs etc. His opinion is that a general public to-day requires to be gradually educated and disciplined to aerial methods of defence; just as one trains a young horse to take jumps he first fears.

OFFICIALLY RECEIVED IN HONG KONG

Important Speeches At Sir Robert Ho Tung's Luncheon

FRIENDLY SINO-BRITISH RELATIONS LAUDED

Referred to by General Chiang Kai-shek as "the foremost meritorious man in China," His Excellency the special Ambassador and Chief Delegate of the National Government of China to the Coronation, Dr. H. H. Kung, arrived at Hong Kong yesterday accompanied by a distinguished entourage en route for Europe by the Lloyd Triestino liner "Victoria."

Owing to the indisposition of His Excellency the Governor, Sir Andrew Caldecott, the official welcome to the Colony was accorded the Ambassador and his colleagues by the Colonial Secretary, Hon. Mr. N. L. Smith, who placed at the Ambassador's disposal the Governor's launch and limousine.

An official spokesman for the delegation stated that whilst the purpose of Dr. Kung's leaving China was to attend the Coronation, yet it was hoped that afterwards His Excellency and his colleagues would make a tour of investigation of industry and commerce in the main centres of Europe.

Dr. Kung's leaving China, it was explained, had been possible because the finances of the nation had been stabilized. During the Ambassador's absence finance matters of major importance would be administered by General Chiang Kai-shek.

Having attended a brilliant luncheon given in his honour and that of his colleagues by Sir Robert Ho Tung, a reception in the Hotel Cecil by the Chinese community and another at the headquarters of the Chinese General Chamber of Commerce, Dr. Kung and his party sailed on the "Victoria" last night.

REPRESENTATIVE GATHERING

Representative of the Government, the Legislative and Executive Councils, the Navy, Army and Air Force, the Bench and the Bar, commerce and industry and the Chinese community, the four hundred guests invited by Sir Robert Ho Tung to the luncheon in honour of His Excellency, Dr. Kung, constituted one of the most influential assemblages ever seen in the Colony. The main reception room of Sir Robert's palatial and picturesque Peak residence, "The Falls," became thronged with a galaxy of talent which dazzled all the more for the cordiality of their host's greeting and the unaffected happiness of the chief guest of honour.

DR. H. H. KUNG

It was certainly a great occasion. Luncheon was served in the beautifully panelled dining room, and after the toast of the Republic of China had been given by Sir Robert Ho Tung, and that of His Britannic Majesty by the Ambassador, Sir Robert then proposed the toast of the health of Dr. Kung and his colleagues.

"Realising the state of my health," remarked Sir Robert, "His Excellency has been graciously pleased to allow my secretary to read my speech."

A GIGANTIC TASK

The proposition of the toast, by Sir Robert was in these words:—"Their Excellencies, Dr. Kung and

PUBLIC EXAMINATION OF CHOA PO SIEN

Searching Questions Asked By Mr. F.H. Loseby

"MY OWN HOUSE IS NOT MY OWN"

The public examination of Choa Po Sien, formerly comptroller of the French Bank, was continued before the Chief Justice, Sir Atholl MacGregor, at the Bankruptcy Court on Saturday morning. It will be recalled that when the examination was first heard on February 6, Miss Ethel Morrison, one of the creditors, made serious allegations against Choa Po Sien in connection with some shares she had placed in his charge which the debtor admitted he had sold, but added that there was an understanding between them, and that this had given him full liberty of action.

At the continued hearing on Saturday, Mr. F. H. Loseby, of Messrs. Russ and Company, who appeared on behalf of Miss Morrison, questioned Choa Po Sien at length after which the hearing was further adjourned.

When Choa Po Sien entered the witness box on his former declaration, Mr. J. B. Prentiss, Official Receiver, informed the Court that he had no further questions to ask.

Mr. F. H. Loseby said that he was under the impression that they were going to fix another date for the public examination but it seemed he was under a false impression and he apologised. Miss Morrison was present in Court.

Replying to questions by Mr. Loseby, Choa Po Sien said that he remembered signing a statement of affairs and swearing that they were true.

Mr. Loseby: You remember Miss Morrison sued you in this Court?—Yes.

You remember making an affidavit in that action. Was that true?—Yes.

And what you said in the last public examination, that was also true?—Up to a certain extent with the exception of the word "trust," which I took as the ordinary person trusting another, not taking it as the strict legal sense of the word. Apart from that, from the layman point of view, I think that it was true.

China's New-Found Strength

Nanking, March 29.

When a Japanese banker, in charge of the Shanghai branch of one of the leading financial institutions in Tokyo, warns his countrymen that the Chinese people are no longer incohesive like a tray of sand, but are hardening into cement in consequence of external pressure, wide interest is aroused as to the truth of the statement and its implications.

Mr. Seiji Yoshida, as representative of the Mitsubishi Bank and Chairman of the Japanese Chamber of Commerce in Shanghai, must be regarded as having some authority to express the views of the local business community of which he is a prominent member, and in a pamphlet he has written (which has been widely distributed among Japanese business-men by the Tokyo Chamber of Commerce) he calls attention to the necessity of the Japanese Government, and people correcting their mistaken ideas about political, economic, and general conditions in China.

FRANCONIA ARRIVES

More Tourists Visit Hong Kong

INTERESTING PERSONALITIES

Once again the white hull and red funnel of the Cunard White Star liner Franconia graced Hong Kong harbour when she arrived at daylight yesterday and berthed at the Kowloon Wharf in the course of her round the world cruise which was commenced from New York on January 7 and which will be completed on May 30.

On board were over 350 wealthy tourists—some of whom had visited this part of the world on several previous occasions and who were delighted once again to see this port.

Officers on board told a "Daily Press" representative that the voyage from Manila, in fact, since the beginning of the cruise, had been done in ideal cruising weather and there had been no incidents.

SHOW WINDOW SMASHED

Rifleman Held In Custody

The well-known local firm of Messrs. Lane, Crawford's were the victims of a window smashing incident shortly after 10.30 p.m. It is alleged that Rifleman Michael Maclean of the R.U.R. smashed the left hand window, the one next to the Hong Kong Gas Company, where ladies' dresses are displayed.

It is further alleged that Rifleman Maclean used the knob of his cane to break the window. He was detained by the Indian watchman of the company who handed him over to a Chinese constable.

He was brought to Police headquarters and later handed over to military custody.

GAY SCENE IN HARBOUR

Farewell To Capt. C.G.B. Coltart

On Saturday morning, Captain C. G. B. Coltart, R.N., left the Submarine Depot Ship Medway to join the P. and O. liner Ranchi in which ship he is travelling home.

Capt. Coltart was accorded the naval honours customary on the departure of a popular commanding officer. A twelve-oared cutter lay alongside the outer submarine on the starboard "trot" of the Medway, manned by 24 officers of all ranks from Commander down and representative of all branches of the Submarine Flotilla. Into this cutter stepped Capt. Coltart who was rowed away to the Kowloon Wharf to the accompaniment of rousing farewell cheers of the mothership's and her tender's crews who had "cleared lower deck" in his honour.

The deafening reports of mammoth crackers fired on the occasion by the Chinese sampan girls who work the Medway's unofficial bumbaste, added to the scene some local colour which was certainly appreciated by the recipient of the salutes for he waved back especially in their direction, as well as to his cheering shipmates.

CHOA PO SIEN QUESTIONED

(Continued from Page 1)

BENEFACTORS

In your statement of affairs
you disclosed very few assets. You
said that your furniture was worth
\$3,000 and you gave a loss of
\$16,900 on other property and then
you refer to a sum of \$15,000 that
you say was put up by benefac-
tors. Was that true?—Yes.

Can you tell me the names of
these benefactors?—Yes. My
brother Choa Po-min and others
raised through him. I don't know
their names. In fact my brother
and friends put up \$15,000 and
that was a gift.

You remember a judgment
against you by Miss Morrison and
then I think I am right, am I not,
that soon after that judgment you
instituted a bill of sale?—Yes.
Money was raised in order to
make up a sum to offer to Miss
Morrison as compromise. I re-
ceived \$3,000 in that bill of sale.

CHEQUE CASHED

Was that \$3,000 paid in notes or
in cheque?—In cheque made pay-
able to a solicitor. Mr. Silva. I
think. My nephew, W. H. Choy,
cashed the cheque and I never
got the money.

Did you return your nephew as
one of your debtors in your state-
ment of affairs?—No. The \$3,000
was paid in to the Official Receiver
by my nephew. I cannot quite
recall. It was part of the \$15-
000.

Mr. Loseby: Mr. Choa, let us get
down to bedrock. Is it true or
not that they put up \$15,000 or
was it \$12,000?

Choa Po Sien: The \$3,000 was
part of the \$15,000.

Mr. Prentis, interposing, stated
that the \$3,000 was paid in to
himself by the debtor's nephew.
Mr. Loseby: At the first meet-
ing of creditors you were present
and the creditors were told—cor-
rect me if I am wrong—that this
\$15,000 had been put up by your
friends and the money belonged to
your friends. Were they told
about the \$3,000?—I don't remem-
ber.

They were told that if the re-
ceiving order was not made the
\$15,000 would be returned to the
benefactors. You know that?—I
don't quite remember.

Is any part of that \$12,000
money owing to you?—No, I am
quite sure, only \$3,000.

And there are no other assets or
property belonging to you which
is not disclosed in the statement
of affairs?—There are a few un-
collectable debts, running up to
\$10,000 or \$15,000, not more.

All your creditors are put in
the statement of affairs are they?
—As far as I know.

BANK DEBT

I would like to know something
about your indebtedness to the
bank. There is still a debt owing
by you?—It has been settled or
rather the bank gave me the
benefit of having this item waived.
Is that definitely settled?—As
far as I know.

Suppose we are able to find
some more money belonging to
you is there anything to prevent
the bank coming to prove in this
Court?—If there was any money
coming to the bank it would have
been mentioned in the statement
of affairs.

Have you got any agreement
with the bank which will prevent
them from coming in to prove?—
No, but they definitely promised
me by the Head Office through
the manager here. That was be-
fore the first hearing of the bank-
ruptcy. I did not see the au-
thority from the Head Office.

Mr. Prentis: I have seen the
manager.

Mr. Loseby: And that is the
undertaking, Mr. Choa, that they
won't prove in your bankruptcy.

Mr. Loseby: I would like to
know a little bit more about your
affairs with the bank. How many
years is it that you became com-
pradore?

Replying to the question, Choa
Po Sien told the Court that he
became compradore in 1928. He
gave security to the value of \$150-
000 in property which belonged
to his uncle, Choa Pik Cheung.
Witness came to an arrangement
whereby his uncle got certain per-
centage of the profits, if any. The
arrangement was not in writing.
Witness's uncle put up security of
\$125,000 in property. There was
nothing fixed concerning the ar-
rangements and witness did not
think about it. "I never gave him
a share of the profits, never one
cent," said witness.

Mr. Loseby: Are you quite sure?
—Yes.

"IF I CAN FIND THEM"

Did you keep proper books?—
Yes.
Where are they?—In the bank.
I will take them to the Official
Receiver, if I can find them. They

may have been mislaid some-
where among the papers.

Mr. Loseby: You have not
handed that to the Official Re-
ceiver. Will you do that?—If I
can find it.

Who prepared the documents?
—I think it was Messrs. Johns-
ton, Stokes and Master.

You will have the bill, won't
you?—It may be there.

Where do you keep private pa-
pers?—In the house.

Where are they now? Are they
still in your house?—They may be
there. I have no safe in the
house.

Will you look for all your pa-
pers and bring them to the Of-
ficial Receiver, all of them?—Yes.

Will you particularly look for
your solicitors' bills?—Yes.

OTHER BUSINESS

Quite apart from the business
you had with the bank, you have
been engaged in many other busi-
nesses during the last ten years.

—Yes, I have dealt in shares
largely, more or less. I have
never dealt in exchange.

Did you have any transactions
in bullion or exchange?—I acted
as broker for clients in exchange
for a commission.

Where are your books as an ex-
change broker?—I operated in the

Ning Hing and Kwai Yuen Banks
which have since closed.

Have you done any exchange
business in your own name in the
last ten years?—I employed Chi-
nese brokers in gold and silver
exchange. I have operated on
behalf of clients of the bank for
the profit of the bank.

Have you had any dealings in
property in the last ten years?—
No.

"My own house is not my own,"
witness replied to further ques-
tions. "I am still the tenant."

Witness when asked how he
came by the house at Broadwood
Road stated that he rented it
from the Spanish Procuration to
whom he had always paid the
rent to Father Noval. The rent,
he said, varied from time to time
and when he first occupied the
house the rent was about \$300 or
\$400.

"I have had dealings as a brok-
er but not as a principal. I
made a commission. I made en-
tries in my own note books.
They might have been destroyed
but I will look for them," remark-
ed witness.

Mr. Loseby: Have you handed
over any books or official papers
to the Official Receiver?—Bank
books for the past five years.

The cause of the accident is still unknown. The company held a private enquiry this afternoon and the Ministry of Transport's inquiry will be opened on Wednesday next.

Reuter's Bulletin Service.

Washington, Apr. 2. Prices on durable goods, like steel and copper, are far too high; and the time has come for the Government to discourage federal expenditure on such commodities and encourage expenditure on consumer products, declared President F. D. Roosevelt, at a press conference to-day.

He described as a danger the fact that the increase in the production of durable goods was proceeding more rapidly than for consumer goods. For this reason, he said, at a recent meeting of Congress members he had suggested that future public works expenditure should not be for steel bridges and other such permanent structures, but for channel dredging, earthen dams and projects creating larger purchaser power for consumer goods.

New Delhi, Apr. 2. The Italian action against Indian traders in Ethiopia, the closing of Indian chain stores there and the expulsion of their staffs, were points raised today in the Legislative Assembly by an Indian member. He asked what steps the Government had taken to protect Indian lives and property in the newly-conquered Italian colony.

An official spokesman replied that the authorities had informed the British Government of the interest taken in the matter by the people of India.

Following a volley of supplementary questions, the chairman of the Assembly asked whether the British Government contemplated retaliatory measures against Italians trading in India.

Reuter's Bulletin Service.

Washington, Apr. 2. Huge orders for steel for rearmament purposes were one of the factors causing the unhealthy increase in the rate of production and price rise of durable goods, as opposed to consumers' goods, President Roosevelt to-day asserted. He said the time had come to discourage over-rapid production in the heavy industries and to encourage greater distribution of consumers' articles.

He indicated his future policy would be to slow down the utilisation by Government public works of the products of heavy industries, effecting thereby economies in relief organisation necessary to balance the budget, while continuing projects which put money directly into the pockets of the unemployed.

Reuter.

London Apr. 2. The first stage of the Government's air expansion programme required 2,500 new pilots last year and 20,000 new aircraft hands. Applications for these two groups far outnumbered the requirements and amounted to 14,000 and 66,000 respectively.

Now 1,500 more pilots will be required this year and eagerness to join the Air Force is such that excess of applications over vacancies will probably be even greater than last year.

CHRISTIAN SCIENCE

Lecture At The Y.M.C.A.

Mr. Frank Bell, C.S.B., member of the Board of Lectureship of The Mother Church, The First Church of Christ, Scientist, Boston, Mass., delivered a lecture on "Christian Science" at the Y.M.C.A. on Thursday when a large gathering attended.

Below we give the third installment of Mr. Bell's talk:

The teachings of Christian Science coincide with the affirmations of the Scriptures that all things were made by God, that without Him was not anything made, that God saw, comprehended, creation in its entirety, and it was very good.

The Bible also avers that everything that was made, not only was in the beginning perfect and complete, but is now and everlastingly will be perfect and complete. In the words of Ecclesiastes, "Whatsoever God doeth, it shall be for ever: nothing can be put to it, nor any thing taken from it."

These declarations are true, not only because they appear in the Bible; they are true because they could not possibly be untrue. Reason and logic affirm the sublime simple proposition that the intelligence and ability to create a universe imply the intelligence and ability to create it aright.

But while revelation and reason agree as to the unanswerable fact, human sense argues through a thousand daily experiences that discord, fear, sin, and disease, myriad forms and phases of evil, do exist, are a part of actuality; that creation, if it ever was good and right, was not sufficiently good and right to remain forever good and right.

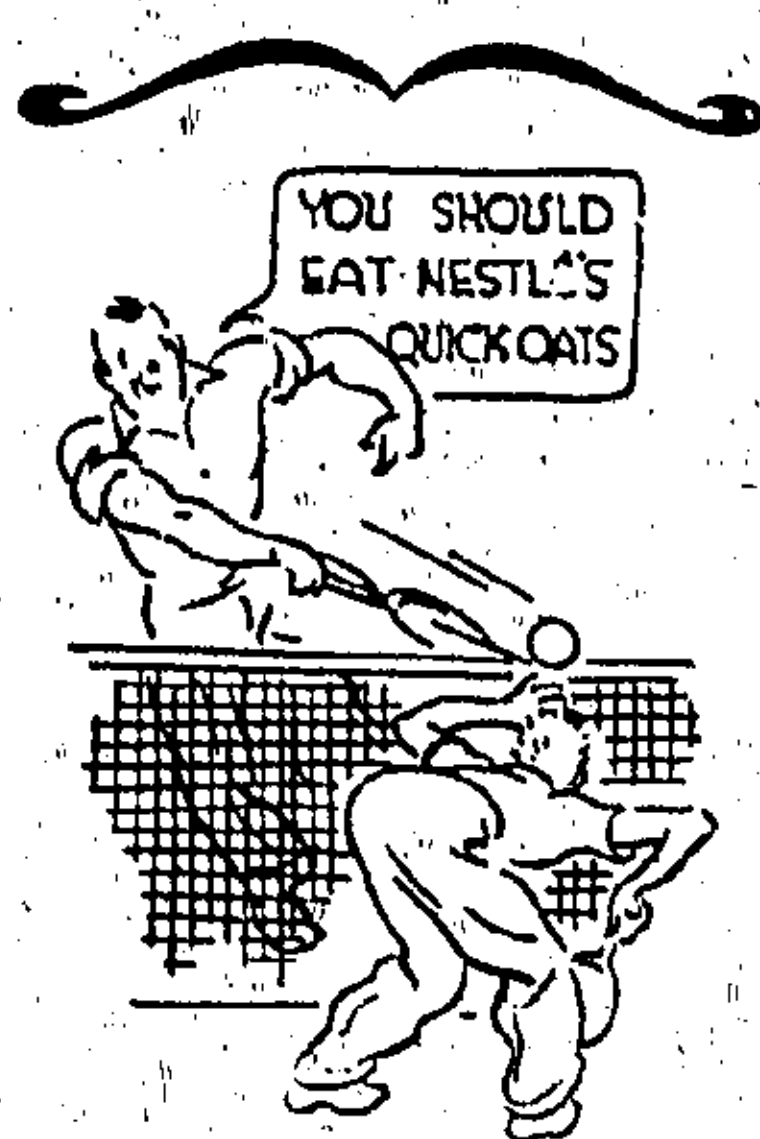

There is conflict, in other words, between pure reason and human experience. Neither the unstable theories of material science, the blind hopes of superficial religion, nor the stupid dreams of sensualism will solve this problem.

Fortunately, in all ages there have been prophets and seers who were not wholly deceived by the apparently overwhelming material sense testimony on the wrong side. In the nineteenth century a woman saw the incongruity between the truth of being and experiences of human life. She saw that perfect God and imperfect man could not both be true. Imperfection could not be real unless God, the

creator of all, is its author. Imperfect creation could be the product only of imperfect creator. To her the question was clear-cut and unescapable. Her answer was such as would come from one who loved God whole-heartedly and pure-mindedly as did Mary Baker Eddy in her textbook, "Science and Health with Key to the Scriptures," page 113, she writes: "According to the Scripture, I find that God is true, but every [mortal] man a liar." The sense of things that denies the perfection of God and His creation is false.

When Mrs. Eddy learned that it is the physical senses which presume to take issue with God's perfection, she saw that it is the impressions of these senses which constitute what the Bible terms the "carnal mind," that "is enmity against God." If God's man is all right, the mind or sense which says that he is partly wrong is a lying mind, a false sense. Mrs. Eddy calls this false sense of things mortal mind, to distinguish it from immortal Mind, which latter is properly spelled with a capital M, for it is true synonym for God. When Paul declared that salvation should be found in taking on the Mind that was in Christ Jesus, he knew that Jesus had repudiated the so-called mind or sense of things that accepted any evidence of reality in aught unlike the nature of God.

Mortal mind must be put off. Why? Because it is composed of that material sense which is unable to resist the temptation to believe that mindless, inert, non-intelligent matter has the capacity within itself to think, to act, to live; to believe that man, therefore, is not the image and likeness of God, Spirit, but is a physical mechanism. Mortal mind consists of the thoughts that it thinks. Therefore, as the Bible declares, "We wrestle not against flesh and blood." We are engaged in a warfare against wrong thinking. The true sense is spiritual and its fruits are the opposite of sin and death.

PARTITION OF PALESTINE

London, Apr. 3.
A sensational suggestion that
the Palestine Commission, now
sitting in London, is considering a
scheme for partition of Palestine
as a radical but effective solution
of the entire Palestine issue, is
made by the "Daily Herald."
Two proposals are under con-
sideration by the Commission, the
paper says.
One provides for partition of
the country into two autonomous
zones, Jewish and Arab, after the
Swiss model, with retention of the
mandatory administration.
The other plan would create two
practically independent states, one
being a "Jewish Dominion" and
the other an "Arab Dominion,"
the latter to be connected with
Trans-Jordan.
Special arrangements would have
to be made in regard to Jerusalem,
the paper points out, for cultural
reasons, and for Haifa, for strate-
gical reasons.
Jewish territory under this
scheme would constitute about one
half of Palestine as it now stands
and would embrace the coastal
area from Accra in the north to
Gaza in the south, and eastwards
to Gadliah, which territory would
be capable of absorbing 1,000,000
Jewish settlers.
No decision, the paper concludes,
will be taken on the proposals be-
fore the end of April.

CABLE NEWS IN BRIEF

(Continued from Page 3)

Berlin, Apr. 2.
The "Church of the old Prussian
Union," biggest of the German
Protestant churches, issued a de-
creed with the consent of the Reichs
Church Ministry, ordering that
the change of chairmanship in the
parishes, which is due now, is not
to take place until further notice.
The decree is intended to pre-
vent uneasiness in the parishes
possibly created by such an ad-
ministrative change in view of
the impending church elections,
church circles state. It is further
stated that the delay in issuing
the election regulations and fixing
a date for the elections is due solely
to technical difficulties involved.

The wreckage from the plane of
the 71-year-old "Flying Duchess"

Yarmouth to-day. It must now be
taken for certain that the Duchess,
who was searched for by more
than 100 planes last week, has
been drowned.

Belgrade, Apr. 2.
A communique about the out-
come of the Conference of the Lit-
tle Entente, announced by the
Czechoslovakian Premier, Dr.
Krofa to the press to-day, con-
tains little concrete data. It
stresses the agreement between
the three countries in political and
economic questions, the adherence
to the League of Nations and the
readiness for ever-increasing co-
operation with the neighbouring
states.
The communique rejects parti-
cipation in the ideological inter-
national conflict and welcomes
Yugoslavia's pacts with Bulgaria
and Italy, as a contribution to
the pacifications of South-Eastern
Europe.

It is, however, stressed that
other international obligations of
the Little Entente are not affected
by these pacts. No mention is
made of the efforts of Czechoslo-
vakia to develop alliances of the
Little Entente in the direction of
joining the Paris-Moscow axis. It
is, therefore, believed that these
efforts, which were supported by
French diplomacy, were strongly
opposed by Rumania and Yugo-
slavia.

LOST HORIZON

Frank Capra's most important production, "Lost Horizon," opened on Saturday at the King's Theatre. Nearly two years in the making, "Lost Horizon" is the screen version of James Hilton's sensational novel of that name.

Starred in the picture, is Ronald Colman, who was last seen in "Under Two Flags." It is said that Capra patiently waited months for Colman to be available for "Lost Horizon," as the director considered him the ideal choice for the role of "Robert Conway," key figure of the romantic tale.

THE GAY DESPERADO

Romance, melody and laughter are the order of the day at the Majestic Theatre where Nino Martini, the handsome singing star of radio, grand opera and films, began delighting audiences in "The Gay Desperado."

A far cry from the usual film featuring an operatic songbird, "The Gay Desperado," briskly directed by the inimitable Rouben Mamoulian, is a fast-moving, thrill-packed, laugh-loaded story, laid below the Rio Grande.

THE HERSEYS

Opening their programme with "Tea for Two," which has been very popular during the past week, followed by "Bolero," a wonderful display of concerted motion and perfect poise, "Cheek to Cheek" and a Fox-trot, "Tiger Rag," Edith and Billy Hersey again achieved another outstanding success at the Gloucester Hotel on Saturday night, when they displayed the art of modern dancing, including several original ideas of their own.

FAREWELL DANCE

The monthly dance of the Royal Engineers' Old Comrades' Association held at the Peninsula Hotel on Saturday night was well attended. The dance took the form of a farewell to members who are leaving by the next troopship. The music was provided by the band of the Seaforth Highlanders.

IMPORTANT VISIT TO BRITAIN

London, Apr. 3.

The announcement in Washington yesterday by the Secretary of State that the United States was planning to call an International Disarmament Conference, has evoked much comment.

The "Daily Telegraph," commenting on the presence in London of Mr. Norman Davis, American "Ambassador-at-Large," whose job it is to sound out European opinion on the subject, says that Mr. Davis is in Europe in a purely unofficial capacity.

In his enquiries, he will not only deal with possible halting of the rearmament race but will touch on restoration of normal commercial relations.

The paper says that President Roosevelt would welcome the opportunity to send the world an appeal of this kind.

The "Daily Mail" says that Mr. Davis' visit is one of the most important paid to Europe by an American statesman for a long time.

VERITY AT HIS DEADLIEST

M.C.C. Win Last Match

Auckland, April 3.

With Hedley Verity, the Yorkshire slow bowler, in one of his inspired moods, wickets fell fast in the last match played by the M.C.C. before their return to England, and the tourists beat the combined Auckland-Wellington XI in decisive fashion.

Verity was at his best in the second innings, when Auckland opened with a slender deficit of 22 runs and knocked these off at the close of play yesterday for the loss of two wickets.

This morning Verity took five wickets for 42 runs, the last eight Auckland batsmen adding only 101 to the score.

With 101 to win, the M. C. C. faced the bowlers with confidence and knocked off the required runs with three wickets down.

Auckland 183 and 123.

"TAIKOO CHEONG" Diesel Harbour Tug

An interesting new vessel, which has gone into commission in Hong Kong Harbour, is the "Taikoo Cheong," built by the Taikoo Dockyard and Engineering Co. of Hong Kong, Ltd., for their own service as a tug and also as a ferry for the speedy transport of workmen and materials from Dockyard to ships undergoing repairs in Hong Kong Harbour.

The "Taikoo Cheong" has a length of 80 feet and a beam of 18 feet 6 inches, while her load draft is 4 feet 11 inches fore, and 7 feet 5 inches aft. A false forecastle gives the craft a sturdy and workmanlike appearance. The machinery space is situated amidships and forward of this is a roomy compartment for accommodation of workmen while at the after end is a cargo hold for carriage of materials and stores. The crew space is in the fore-castle, with an entrance companionway on deck. Staff cabin, galley, and lavatories are provided in a large deck house on the forward deck. The navigating bridge is built over the forward deckhouse.

This vessel embodies many of the most recent developments in scientific design and methods of construction.

ELECTRIC WELDED

The steel hull is entirely electric welded and the structure has been specially designed to give the most efficient and economical arrangement of welded connections. The vessel is a splendid example of recent progress in welded ship construction.

A Kort Nozzle has been fitted round propeller to give increased tow-ropes pull. This nozzle is the patent of Mr. Ludwig Kort of Hanover, and is designed to give improved performance when towing. Towing trials were carried out before and after fitting this Kort nozzle and it was found that an increase in tow-rope pull was obtained after Kort Nozzle was fitted.

The towing hook is of special design and the usual buffer spring is replaced by a hydraulic ram which registers this tow-rope pull in tons on an indicator on the navigating bridge.

The main propelling machinery is a Sulzer Diesel Engine built by the Taikoo Dockyard and Engineering Co., Ltd. under special licence from Sulzer Bros., Winterthur.

THE ENGINE

The engine is of five-cylinder, single-acting, two-stroke, cross-head type fitted with auxiliary scavange pumps to give a degree of supercharge. The cylinders and heads are fresh water cooled, and all pumps for fresh water circulating, salt water circulating, and bilge service are attached to main engine, as also the lubricating oil pump and air compressors.

On trial the engine developed 250 B.H.P. at 320 R.P.M. The speed on trial was 10½ knots.

It is of special interest that this is the first marine Diesel engine to be built in Hong Kong and as a result of the successful performance of this engine an order has been placed with the Dockyard Company for a coastal vessel with Twin-Sulzer Diesel Engines.

Installed in the engine room is a general service auxiliary unit, consisting of high and low pressure air compressors, the former for charging air reservoirs of Diesel engine vessels and the latter for supplying air to pneumatic tools; a centrifugal pump for fire and general service; and a belt-driven centrifugal pump for bilge and general service; all driven by an 18 B.H.P. Lister Marine Auxiliary Engine.

The vessel has been built under survey of Hong Kong Government Marine Surveyors Department and is licensed to carry 189 passengers in harbour and 87 outside local waters.

DEPORTATION OF BRITONS

Changes In Local Ordinance

The "Government Gazette" contains the draft of an Ordinance to amend the Deportation (British Subjects) Ordinance, 1936.

The amendments have been suggested by the Secretary of State with a view to bringing the Ordinance into closer conformity with a Model Bill attached to the Report of a Departmental Committee of the Colonial Office appointed by the Secretary of State. Section 2 (3) of the principal Ordinance provided that a person should be deemed an immigrant British subject if he had been resident in the Colony for less than certain prescribed periods.

TWO INSTEAD OF SEVEN

The words "since the date of his last arrival therein" were inserted to prevent a claim of former residence defeating the unexpressed intention of the Committee which prepared the model, that the periods of residence concerned must have immediately preceded the service of notice or the charge. At the same time the words in question were not satisfactory because thereby a long period of residence might be broken by a few days absence. The amendment will delete these words and substitute others expressing more clearly the intention of the Committee.

Section 2 (3) (b) of the principal Ordinance provided that a convicted or undesirable British subject should be deemed an immigrant if his period of residence had been less than seven years. To conform with the model, the amendment will reduce this period to two years.

BRITAIN'S NAVAL
STRENGTH

Naval Estimates of £105,065,000 provide an earnest of the reality of rearmament, and of the energetic manner in which the Admiralty has dealt with its share of the new provision for defence. A programme that contemplates having 148 vessels under construction at the same time is impressive, but is certainly not beyond the capacity of the building yards of Britain. So far as the Navy is concerned there has never been any doubt that, once the nation was resolved on adequate defence, British engineering and shipbuilding resources will give of the capacity to out-build competitors. The new programme will fill berths that have been too long empty, and give a vast amount of work to districts in which unemployment has been for years at a high level.

Other programmes will have to follow upon this during the five years to come before the position will be restored, and the scale of expenditure must be expected to increase as the big ships now projected arrive at an advanced stage of construction. With the three vessels of the King George V. type to be laid down this year the Navy will have no more than seven post-war battleships. The seven new cruisers are still short of the 60 modern ships of this type fixed as a minimum for future needs. These facts are pointers to the leeway to be made up and to the effort still to be made. So far as the present estimates are concerned, £27,000,000 of the additional expenditure is to come from loans, leaving £78,065,000 to be provided from taxation, an increase over the original estimate in the Budget of this year—which has been considerably exceeded—of nearly £8,000,000. Not until the Estimates for the other Services are issued will it be known how far the Chancellor of the Exchequer intends to avail himself of the new borrowing powers, but in this year the Navy takes approximately a third of the £80,000,000 which, averaged over five years, would make up the maximum of £400,000,000.

Such allocation of expenditure is fully justified by the nature of the work to be undertaken. New construction alone will require over £14,000,000 more this year than last, and the ships it is to provide will be in existence long beyond the five years in which they are built. Criticism of rearmament is no longer coming from any responsible quarter. In the House of Lords recently Lord Snell, the Leader of the Socialist Opposition, said more frankly than did the chiefs of that party in the Commons that "we are compelled in the name of peace to support the rearmament programme of the Government," adding that he believed it would make for the pacification of Europe. That it may do so is

If Gossip We Must

(BY "PRUDENCE")

Many sad farewells were said when the Ranchi sailed on Saturday. Among the departees was Mr. E. B. Reed (Superintendent of Crown Lands and Surveys) who has gone home on retirement, and will be very much missed, not only in his Department, but by the Jockey Club, the Civil Service Cricket Club, the Yacht Club and other sporting circles.

Captain and Mrs. Cyril Coltart, also will be sadly missed. The famous rabbit (complete with a warm coat for the voyage) was safely parked with the ship's butcher. This sounds rather sinister, but as a matter of fact he is the most dependable person, and always takes charge of the "Peta" on board.

"Uncle Cyril" was rowed from the Midway by a crew of the Ships' Officers, who made good going across the harbour, although some-

one accused them of catch-in-a-crab or two on the way!

Popular "Sonny" Hole and her husband also left by the Ranchi on leave and will be back in time for Christmas. When we arrived to say good-bye we found Mrs. Hole looking very charming in a costume of light gray and navy-blue, dispensing cocktails to all and sundry in the lounge, with a lavish hand.

One of the most exclusive Ladies' Clubs in London's West End had so many applicants who wanted rooms for Coronation week, that they decided to ballot for them. Mrs. Ronnie Child was one of the lucky ones, and she too left by the Ranchi, and is looking forward to seeing the Coronation Procession in comfort. Dr. Tso and his son were on board. Dr. Tso will be the representative of the Chinese community of Hong Kong at the Coronation.

With so many farewells it is nice to welcome others back to the Colony. I ran into Mrs. Lindell last week. She is just back after a long holiday at home, and was looking splendid. Mrs. Hinshelwood, too, is here for a short visit, to escape the hot weather in Bangkok, and is staying with her father and mother on the Peak. She was looking prettier than ever in a nut-brown suit and smart little Russian hat. With her was her sister Rosemary, who has been on a visit to Siam, and has been playing quite a lot of polo, whilst there.

It was bad luck the H.M.S. Berwick had a rainy night during the week for their dance, but in spite of the damp decks everyone seemed to enjoy it, and some of the ladies had a lot of fun pulling rubbers over their silver slippers and dancing gaily on. It was a very cheery evening.

China's Special Ambassador
To Coronation

(Continued from Page 1.)

Admiral Chen (Deputy Chief Delegate) and Secretary-General Yung together with the other members of the special delegation to the Coronation, have decided to pause here, for a short while and honour us with their gracious presence. This enables us to enjoy the prestige of meeting them over a friendly cup of wine. (Laughter and applause.)

"His Excellency the Special Ambassador is esteemed for his many virtues and outstanding ability, not only at home but also in foreign lands. During the last few years, His Excellency has devoted his indefatigable energies to the gigantic task of financial, economic and industrial reconstruction of a large area of the earth, and the excellent results Dr. Kung has obtained are acknowledged and appreciated by the whole world. (Applause.)

"THE RIGHT MAN"

"Now His Excellency has been allotted another important mission. Let us say at once that the right man has been chosen. The relationship between China and Great Britain, always friendly, has been particularly cordial during recent years. For instance, during November, 1935, when Dr. Kung promulgated measures of monetary adjustment, the British Government promptly co-operated in order that those measures might be fully realised.

SINO-BRITISH RELATIONS

"We all remember how the Hong Kong Government at once fell into line with Dr. Kung's efforts at fiscal reconstruction and placed an embargo on silver. (Applause.) This shows both Dr. Kung's sterling reputation in international finance and the reality of Sino-British co-operation. Is it any wonder then, that such an eminently suitable person as Dr. Kung, with his record of solid and friendly co-operation with British finance, should be chosen to take part in the Coronation celebrations? It is our fervent belief that the visit of His Excellency the Special Ambassador will further cement an already cordial relationship between two great peoples. (Loud applause.)

TOUR OF INVESTIGATION

"I would like to mention another point. Four years ago Dr. Kung was commissioned to go abroad to make a tour of investigation, but he had to terminate it abruptly as he was needed in China urgently. "It is said that after his present mission, Dr. Kung will resume the tour which was begun in 1933, in order that he may find good models for the work of economic

the hope of all parties, but its first purpose is to give the Empire a trustworthy defence in a world armed as never before. No nation in these times can, as Lord Halifax said, forgo the will and the power to defend what it deems to be right. To Britain in particular strength on the seas through which our Dominions are scattered is imperative, and that strength, if it is to be impressive, must be made good with the speed and energy that can be read into these Naval Estimates.

reconstruction of China. Thus Dr. Kung's trip to Europe will bear abundant fruits. (Applause.)

"Going with Dr. Kung is a large and distinguished delegation of diplomats, experts, secretaries and attaches. The future result of their tour must be considerable. I have no doubt they will greatly enhance China's reputation. To-day's function cannot, therefore, be treated as an ordinary function. I, therefore, with increased zeal ask you to drink and drink heartily with me to the health of Dr. Kung and his delegates." (Prolonged applause.)

The toast was honoured with great enthusiasm.

Sir Robert Ho Tung's secretary then presented the speech in manuscript to the Ambassador.

SIGNIFICANCE OF HONG KONG

Speaking in Chinese, one of his secretaries translating paragraph by paragraph into English, His Excellency the Ambassador, Dr. Kung said at the outset that it was a real pleasure that the first place that they had called at was Hong Kong.

"On behalf of the delegation," he said, "I express our thankfulness for the courtesy officially extended to us by Sir Andrew Caldecott through the Colonial Sec., Hon. Mr. N. L. Smith, and Sir Robert Ho Tung for this opportunity of meeting the leading citizens of this great community. Because of its geographical proximity to Kwangtung, Hong Kong may be regarded as the starting point of Sino-British friendship. (Hear, Hear.)

"With the construction of the Kowloon to Canton railway and the continuation to Hankow, transport facilities will result in still furthering close relations in commerce and industry.

"CLOSER RELATIONSHIPS"

"In proceeding to England to represent the National Government of China my purpose is to convey the felicitations and congratulations of China to the British monarch, and to bring closer together the already good relationships between the British and Chinese peoples."

In conclusion, the Ambassador expressed his deep appreciation for the honour which Sir Robert Ho Tung had accorded the delegation by inviting them to meet such a distinguished gathering. (Applause.)

After the toast of the health of Sir Robert Ho Tung had been cordially honoured, His Excellency Dr. Kung spent some time moving through the reception rooms conversing with the guests.

Dr. H. H. Kung, the Finance Minister, was entertained at an enjoyable tea party reception by the Chinese Chamber of Commerce, held in the Board Room of the Chamber, Connaught Road Central, yesterday afternoon.

The reception was attended by a large number of members and friends of the Chamber, amongst them being Mr. Li Sing-kui (Chairman), Mr. Wong Mow-lum (Vice-Chairman), Mr. Tso Hok-yue (Secretary), Hon. Dr. R. H. Kote-wall, Hon. Sir Shouson Chow, Messrs. King-ting, Ho Wing, Au Cham-sum, Chan Kam-por, Kwok Chuen, Chiu Chan-yue and many other prominent Chinese business men and merchants of the Colony.

CHAN CHAI-TONG'S
RETURN

General Chan Chai-tong, former military chief of Kwangtung, will return to Hong Kong in the Potsdam on Thursday.

It is stated that the Central Government may appoint General Chan as the Director of the Exploitation of Natural Resources in Hainan Island.

CHAIRMAN'S SPEECH

In welcoming His Excellency, the Chairman, who spoke in Cantonese, said in part:—

"We all know that the relations between England and China are becoming more and more cemented, each day, and we understand that His Excellency will in his mission, be able to accelerate good-will and warm feelings between England and China, and I hope, among other countries as well.

"It is needless for me to say how well-known His Excellency is in his valuable services for the improvement and reconstruction of China, as Vice-Chairman of the Nanking Executive Yuan, and capable assistant to Generalissimo Chiang Kai-shek; and much of the success in the work of national salvation should therefore, be ascribed to His Excellency, and we Chinese citizens should cherish the great hope for the betterment of the country." (Applause.)

DR. KUNG'S REPLY

Replying, His Excellency Dr. Kung, speaking in Mandarin, thanked the Chamber for the warm welcome accorded him.

Referring to his mission to England, Dr. Kung said that he welcomed the opportunity to convey China's greetings to the British people, and that in the past, no mission to London from China was favoured with such splendid auspices for cementing Sino-British friendship.

He also said that that great improvement in the relations between the two countries was due to the fact, that time has proved how much the British and Chinese people have in common, since both were conservative and adhered to ancient traditions, imbued with high ideals and a genius for commerce.

THE PRESENTS

It is understood that with a view to demonstrating the warmest friendly feelings between China and Great Britain, the Chinese Central Government has been very particular in selecting gifts for presenting to His Majesty King George VI in memory of his Coronation.

The presents represent China's most rare and famous products, such as Hunan silk, Peking carpets, Kiangsi porcelains, etc. These products are very valuable, and are worth many thousands of dollars.

AT HOTEL CECIL

At the Hotel Cecil yesterday afternoon, another tea party reception was given in honour of His Excellency Dr. H. H. Kung, by the representatives of the Hong Kong Confucian Society, Hong Kong Manufacturers' Union, and the twenty-one local Chinese social and commercial bodies, and several speeches were made eulogising and welcoming His Excellency Dr. Kung.

PRES. QUEZON DENIES "MISCHIEVOUS" TALKS

New Military Programme Not Connected With U.S.

New York, Apr. 4.—An emphatic denial that the defence plan of the Philippine Islands was designed to strengthen the military power of the United States in the Western Pacific was given by President Manuel Quezon of the Philippine Commonwealth.

Addressing the Foreign Policy Association here to-day, he declared that he was not militarising the Philippines under the new military programme but was building a citizen army of peace.

The military training of the youths was modelled on that of Switzerland, supplemented only by a small professional force. His object was to strengthen the Philippines in preparation for the independence which the United States Congress has set for 1948.

"The charge that our national defence plan is intended to strengthen the military power of America in the Western Pacific, in the event of war with Japan is not only groundless but also mischievous."

President Quezon added that he believed that with General Douglas MacArthur as the Chief of Staff to direct the development of the new organisation, the Philippines could be made "so expensive and so costly in lives and money that no nation in its senses would attempt to do it."

STRIKE ROLL REDUCED

Many Expected To Resume Work

New York, April 4.—The nation's strike roll was substantially reduced as the result of yesterday's coal agreement which is estimated to have increased the miners' wages by seventeen million dollars annually.

According to Union officials, 1400 of the 130,000 idle of the United Automobile Workers are engaged in the sit down strike in the Ford assembly plant in Kansas City which the Union alleges is due to the fact that the company ignored seniority rights and discriminated against the Union workers.

Thirty thousand General Motors workers are expected to resume work over the week-end but resumption of work in the four-week old Chrysler dispute depends on the outcome of the week-end Conference.

Kansas City, Apr. 3.—The stay in strikers are evacuating the Ford factory late this afternoon, according to the Union leaders, after which mass picketing will be put into operation to prevent all ingress and egress.

Five high officials of the Ford Company are flying from Detroit to investigate the situation.

After the strikers had marched out of the factory to take up their picketing tactics, a member of the Strike Committee announced that the Ford Company had agreed "not to fire a single man" because he was a member of the Union.

EGYPTIAN DELEGATION TO MONTREUX CONFERENCE

Cairo, April 3.—Extensive demonstrations marked the departure yesterday of the Egyptian delegation to the Montreux Conference, where the question of capitulations to Egypt will be discussed.

All political parties united in organising demonstrations in favour of "Egyptian Freedom" both in Cairo and Alexandria.

The President of the Chamber, Dr. Ahmed Maher, told newspapermen before the delegation sailed, that the period of capitulations which will be definitely established during the Montreux talks, will probably be fixed at ten years.

Lisbon, Apr. 4.—The Premier signed an agreement granting the Imperial Airways and Pan American Airways operating rights for twenty-five years, and the use of the ports of Portugal, Madeira and the Azores, for the Trans-Atlantic air service. It is understood that the London Lisbon and United States service will be starting in November, it being stated that the Pan-American Airways have chosen the Lisbon-Azores route as the result of Col. Lindbergh's report after his survey flight in 1933.

COAL STRIKE THREAT

Serious Situation In Britain

London, April 3.—Threat of a vast national coal strike, involving some 400,000 miners, is casting a shadow over the British rearmament programme.

Cause of the threat is a long-standing dispute in the Nottinghamshire coalfields. The dispute concerns the men's demand for the right to belong to the national organisation instead of the local union.

It was then decided to take a ballot in the mining districts on the declaration of a strike, and April 15 has been fixed as the date when the men will record their decision.

The conference turned down draft terms for formation of one miners' union in the Nottinghamshire coalfields, and the miners will be asked whether they are in favour of tendering notice with the object of obtaining recognition of the Mine Workers Federation in the Nottingham area.

A very grave view of the situation is being taken by the Government, as a prolonged stoppage of work would gravely impede the rearmament programme.

Reuter.

STEEL WORKERS

Glasgow, April 3.—The engineers of the Beardmore Steel Works are standing fast by their demands for a settlement of the strike. They are receiving financial assistance from other engineers in Clydeside. An apprentice strike is now affecting fifteen firms. The lads held a mass meeting to-day and appointed delegates to meet the employers to discuss terms.

WAR WASTAGE CONTINUES

More Men Called To Colours

Madrid, April 3.—Renewed fighting on all fronts places the Government in a position of need regarding man power, and the Government has issued a decree that all Spaniards abroad should return to Spain to join the colours. It is admitted that the insurgents are making fresh attempts to capture Bilbao but the Government troops claim that they repulsed all attacks.

MOORISH NOBLES

Salamanca, April 3.—A colourful ceremony was witnessed here to-day when General Franco, the rebel commander-in-chief, received a thousand Moorish nobles who have returned from a pilgrimage to Mecca.

Insurgent quarters here declare that the fact that General Franco welcomed the Moorish leaders dispels rumours of disaffection in Spanish Morocco.

The commander of the rebel cruiser "Canarias," which recently captured a Government armed trawler, was awarded a naval medal by General Franco.

CLERICAL OBSERVERS

Bilbao April 3.—A party of clerics of different denominations arrived Spain yesterday, according to an official Bilbao communiqué, which observes that they came to examine the religious situation of the country and ironically adds that "they were given every facility."

In their presence Rebel planes dropped bombs at the doors of St. Mary's Church and they saw the airman firing with machine guns on women and children.

The Basques, who are Catholics, ridicule the insurgents' radio allegations that the militiamen destroyed the churches at Durango near Bilbao which was bombed recently.

NO PASSING OF VOLUNTEERS

Paris, April 3.—There is no sign of any clandestine passing of volunteers or munitions from France to Spain by the frontier roads, according to a Reuter correspondent who has just concluded a tour of the Franco-Spanish frontier.

Gendarmes and Gardes Mobiles keep constant watch and are continually patrolling the border. The shortage of bread in Spain has complicated control in the Cerbere and Perthus regions, where Spaniards constantly come into the French frontier towns to buy bread.

These comings and goings are harassing the French authorities, as it is felt that the object of the visits may be something more than the purchase of bread.

Control is consequently being tightened in these two regions.

The Journal declares that the former King will wed Mrs. Ernest Simpson at St. Saps Castle, the property of the Duke of Westminster, within a fortnight.

The Duke of Windsor, according to the paper, will arrive in Paris on April 10 and will meet Mrs. Simpson in the capital.

They will then proceed to Bourges, where the civil ceremony will take place.

The church wedding, which will be held in the Castle, will be attended by, amongst others, the Duke of Westminster and friends of Mrs. Simpson.

The paper declares that the wedding will be strictly private in nature and no official personages will be present.

Coal Owners And Workers In New Agreement

London, April 4.—The prospects for good relations between coal owners and workers in the South Wales coalfields in the next four years are strengthened by the delegates to the conference of the South Wales Miners' Federation deciding, at Cardiff to-night, to accept the terms of the new agreement, as arranged by the leaders. The voting in favour of acceptance resulted in 65,520 for and 23,550 against.

The new arrangement provides for weekly increases in pay ranging from 2d to 10s. The owners proposed five years agreement but this was compromised at four in view of the fact that in the past the term had been only three years.

LOCAL FOOTBALL

TSUI HANG FOILS SOUTH CHINA
FORWARDSLai Shui Wing Scores Only
Goal

(BY ROY MURRAY)

Although South China "A's" unaccountable debacle against Navy on Saturday may tend to ultimately endanger their championship prospects at the final reckoning, they found maximum consolation in their overnight return to form by overwhelming Eastern yesterday.

Lee Wai-tong was a notable absentee for the home team. The deplorable water-logged pitch proved master over the fundamentals of efficient football. At the outset South China forwards manoeuvred the greasy ball about the Eastern territory without result until Lai Shui-wing eventually put the finishing touch to a cross from Tso Kwai-shing. Only the spectacular brilliance of Tsui Hang in goal kept out pile-driving volleys from Lai Shui-wing and Fung King-cheong. Conditions during the second period became worse the players presenting a pitiful sight. Eastern forwards, with the exception of Hon Ching-to seemed unable to manipulate the slippery ball, Pau Ka-ping having a field day. The main men of a somewhat farcical game were undoubtedly Kwong Shu-hing at right back for Eastern and Tsui Hang in goal. The latter stood between Eastern and a heavy goal deficit. Lai Shui-wing's goal proved sufficient to supply South China with two valuable points.

LAI WAH CUP
FINALArmy Defeat
Civilians

The final of the Lai Wah Cup football match was played on the Kowloon Football Club yesterday afternoon when the Army defeated the Civilians by four goals to one.

The rain transformed the pitch into a quagmire but in spite of the terrible conditions, a splendid match was seen and the score at half-time was 1-1. In the second half the military side asserted themselves and scored three goals to put the issue beyond doubt.

Talbot, (2), Erwin and Knight were responsible for the goals scored by the Army while D. Knox netted the Civilians solitary goal.

NAVY DEFEAT
S. CHINA "A"

Playing superior football the Navy defeated South China "A" at Caroline Hill on Saturday afternoon. This unexpected defeat of South China may possibly be a vital factor as to who shall be the League champions.

The Navy who gave an excellent display especially in their defence where Regier kept a strong hold on Lee Wai-tong which took the sting out of the usually deadly approach of the Chinese attack. Johnson played a magnificent game at inside left. Unfortunately his inside partner was slow in accepting the many chances which were given him and although Black showed useful speed he was cleverly out-manoeuvred by the Chinese full-backs.

Tipsett had a splendid opportunity of scoring for the Navy when a penalty was awarded, but he lobbed the ball into the Chinese goalkeeper's hands. Lee Wai-tong later broke away down the middle of the field but his usual deadly shot failed him, and went over the cross bar. Wong Moo-shun was ordered off the field after he had been cautioned for rough play.

Following some narrow misses by Black and Johnson the Navy

managed to secure a goal through Cooke, who waited for the ball to come out a scrimmage and placed it neatly past Pau Ka-ping to give the Navy the victory they fully deserved.

SEAFORTHS DRAW
AGAIN

The Seaforth Highlanders shared four goals with the Athletic at Sookunpoo in the Senior League on Saturday.

Chin Chi-tan gave the Chinese the lead which was held until well into the second half, when Ng Tak-wing again sent them in front after Spiers had equalised. The Seaforths equalised through Cook.

POLICE FALTER

The Police and South China "B" were engaged in a thrilling Senior Division match on the Kowloon ground, the Chinese winning by the odd goal in five.

South China "B" scored a first-minute opening goal by Chuk Chek-kam, but the Police managed to equalise shortly after through Brooks.

Following the interval the Police went ahead through Morrison. Chan Tak-fai equalised and Yeuk Hong-woo netted the winning goal.

FOUR POINTS FOR
RECREIO

Four Senior Division points were at stake in the meeting between the Club and Recreio at the Valley on Saturday and the Portuguese team won by a lone goal scored by B. Gossano in the first half.

Having to meet each other twice before the close of the season, the clubs, with the approval of the H.K.F.A., mutually arranged to transfer the venue of yesterday's meeting from King's Park to the Valley and allow the result to hold good for both fixtures to be played.

EASTERN SURPRISED

Fielding a weak team, the Royal Welch Fusiliers surprised spectators at Causeway Bay in their Senior League match with Eastern when they won by four goals to nil.

Eastern had all the misfortunes and should have been two goals up at the interval.

Rowlands played well in checking all the Chinese attacks, bringing off some splendid saves. Chan Bing-to and Chan Cheung-yin were a menacing partnership. Lai Ting-choi was a good full-back.

At the interval the soldiers were two goals ahead, these coming in turn from Roberts and Talbot, and some ten minutes from the end the Fusiliers went further ahead through Sullivan and Talbot.

INTERNATIONAL HOCKEY FINAL

England Defeat Portugal

England beat Portugal (last year's champions) in the final of the International Hockey tournament yesterday afternoon on the U.S.R.C. ground. Despite the rain a large number of spectators were present to witness the match which was very fast and exciting.

At the commencement of the game England opened their score through C. C. Garthwaite who received a pass from Fowler, the right-wing. There was no further score until ten minutes before the interval, when Parker drove a hard shot down the middle of the field for Garthwaite to receive and give Souza no chance with his shot. Shortly after this the whistle went for half time.

On the resumption of play Portugal pulled themselves together and scored two goals within five minutes to equalize. The first goal was scored by Pinto who received a ball from A. P. Souza, the centre forward. Bertie Gossano who changed places with Souza to play left inside scored Portugal's second goal after receiving a pass

from the left wing. After the bully off, play was fairly even and no score being registered until ten minutes before the final whistle when Garthwaite passed the ball out to Fowler who made no mistake in shooting. Resuming play the English forwards made a very fast attack which resulted in Fowler passing the ball to L. Garthwaite who scored to give England victory by four goals to two.

The outstanding players in the English team were Parker of the police, Fowler, and Garthwaite. For Portugal, A. P. Souza and E. L. Gossano played a splendid game and had they put Souza as centre forward at the beginning instead of the second half they might have scored further goals than they did.

INTERNATIONAL RUGBY

Ireland Defeats
Wales

Belfast, Apr. 3.

In the last game of the Inter-
national Rugby Championship
Ireland beat Wales by 5 points to 3.

Wales, after winning the cham-
pionship in the 1935-36 season,
have sensationally gone through
the present season without having
secured a win.

An early morning rain and
drizzle before the start of the
game resulted in poor conditions
and a greasy ball which was dif-
ficult to handle. The dismal wea-
ther prevailing affected the game
to a considerable extent and only
20,000 spectators were present at
the commencement of the game.
Before the game, the teams
were presented to the Duke of
Abercorn, Governor-General of
Northern Ireland.

IRELAND ATTACKS

Ireland attacked from the start
and their backs were handling
well, but Wooller was prominent
both in defence and in attack
several times gaining considerable
ground with long kicking.

Ireland were definitely superior
in the early exchanges, but the
Welsh pack were getting the ball
more in the scrums, and took a
scrum-down every time instead of
a lineout.

In the 33rd minute of the game,
Malcolmson, the Irish back, threw
the ball into touch and was pen-
alised. Legge, the Welsh full-back,
scoring a magnificent penalty-
goal from a difficult angle.

The Welsh forwards worked
heroically and the Irish backs
were subdued. Wales attacked
hotly towards the interval, but
were unable to break through,
leading at half-time by 3 points
to nil.

Ireland:—Malcolmson (North
Ireland); Boyle (Dublin Univer-
sity); Bailey (University); Bailey
(University College, Dublin); Mc-
Mahon (Black Rock College); Mo-
ran (Clontarf); Cromey (Queen's);
Morgan (Clontarf) (captain); Alex-
ander (North Ireland); Corken
(Collegians); Lawlor (Bective);
Siggins (Collegians); Walker (Col-
legians); Ryan (Dolphin); Mayne
(Queen's University) and Reidy
(London Irish).

Wales:—Legge (Newport); L.
Rees; Claude Davey; W. Wooller,
and W. H. Clement; Haydn Tan-
ner and W. H. T. Davies; Travers,
Williams, Ivor Bennett (Abera-
von); H. Thomas, H. Rees, Wat-
kins; A. R. Taylor (Cross Keys)
and A. M. Rees.—Reuter.

LOCAL HOCKEY

In a friendly hockey encounter
against the Kumaon Rifles at
King's Park on Saturday the Euro-
pean "Y" were defeated by 3 goals
to 2.

The Rifles led by a lone goal at
the interval, Mohan Singh, scor-
ing. Shaer Singh increased this
lead before D. Smith replied for
the "Y." Austin equalised the
scores soon afterwards, but Shaer
Singh then netted his second goal
to give the Rifles victory.

LADIES SCORE FIVE

A team of lady hockey players
drew with an eleven from H. M. S.
Capetown on Saturday at the Val-
ley, sharing ten goals. Miss M.
Smith (4) and Miss O. Dalziel
scored for the ladies, whose team
was as follows: Miss J. Weller;
Miss S. Baskett and Miss A. Fow-
ler; Miss G. Swan, Miss S. Gardner
and Miss V. Gordon-Smith; Miss
O. Dalziel, Miss F. Marsh, Miss B.
Abraham, Miss M. Smith and Miss

FAREWELL MESSAGE

(Continued from Page 1)

In these days of aerial warfare to attempt to gain impregnability without such civil preparation is comparable to sending a stout box of gold through a criminal area with its lid off. What has this to do with ambulance service? Much; for without adequate strength of ambulance men and women scattered about the threatened area and—by their presence giving confidence to a terrified people—this civil impregnability cannot be secured.

Fortunately both your Government and those responsible for the protection of Hong Kong fully realise this. But—such are the numbers of ambulance workers who will be required in great emergency—that it is a matter which demands the attention of all; it is, indeed, a time when many whose lives have been spent in less serious affairs should really face up to realities and realise that neither vain bombast nor ostentatious policy does anything towards secure defence; while all, at least, can fit themselves for this by learning first aid. Do I think that war is coming?

If there is one characteristic feature about those I have met in Hong Kong it is common sense. How could any thinking man or woman know that the Empire is now spending almost a million pounds a day in an attempt to reach defensive equality with other formidable powers; that the example for permanent peace which our Empire set has been misinterpreted by aggressive nations as proof of national decay, and read of the welter of blood in Spain, and its most dangerous mixture of nationalities, without also realising that every endeavour must be made to reach real defensive security as rapidly as possible?

I have inspected some 700, splendidly-trained ambulance men and women of the St. John Ambulance Brigade; with the exception of an Indian Division almost entirely composed of Chinese. All honour to these splendid people and to those English, Chinese and Indian officers who have been responsible for providing such a handsome contribution for emergency. It has been raised principally by the generosity of Chinese gentlemen; while there are many still who do not realise that the services of these fine men and women are given entirely free. But 700 ambulance workers it is not enough for the needs of over a million people in the event of aerial gas attack as a moment's thought will show. Fully 2,000 will be required; Neither can this number be produced un-

til those others resident in Hong Kong, and who possess sufficient leisure—realise that the times are by no means normal, and that instruction in first aid and home nursing, requires many weeks of time. Representing, as I do, the most ancient ambulance service in the world, it is wrong to express a certain regret that—with His Majesty the King—Emperor as its Sovereign Head and Her Majesty the Queen the head of its Nursing Divisions, the St. John Ambulance Brigade in Hong Kong to-day contains so few Englishmen and English women? At Cape Town, for example there are eight European Divisions to four non-European of Ambulance and eight European to three Nursing Divisions. Admittedly it is the duty of the Chinese to prepare themselves to protect their own people—and all honour to them—they are doing most splendidly. But it is equally the duty of all resident in the Colony to prepare themselves to take some part, however minor it may seem, in the defensive security of Hong Kong; and first aid lectures occupy but six hours a year; time which can surely be spared from amusement and frivolity.

Doubtless there are some who become tired of this talk of ambulance needs; or that type which prefers to treat everything in life as a series of motion pictures, to interest for a moment and then give place to something new for a jaded palate. Unfortunately, for such ambulance, or even defensive needs, must quickly pall. To those who see things as they actually are ambulance work can be thrilling.

As regards the efficiency of the ambulance which I have seen, and the magnificent work being done in the New Territories by the St. John Ambulance Brigade, I can have nothing but the warmest praise.

The Director of Ambulance, Mr. Alfred Morris, and those others who have helped him deserve the highest praise for the success which has attended their efforts. And in leaving Hong Kong I would congratulate the Press particularly upon its far-seeing recognition of the ambulance needs of the Colony and for the generous support which they have given me throughout my period of stay. Lastly I would offer the thanks of His Royal Highness The Duke of Connaught, K.G., the Grand Prior of the Venerable Order of St. John of Jerusalem, to all those who have helped forward ambulance service in this most important part of the Commonwealth of Nations.

CHOA PO SIEN QUESTIONED

(Continued from Page 2)

NO INCOME LAST YEAR
For the whole of last year you were without money?—I earned no income.

You were hopelessly insolvent. I certainly had no income, only by odd jobs.

Did you at any time during 1936 have \$1,000 in your possession?—No. Did you have any securities during that time?—No.

Replying further, witness said that he remembered the transaction he had with Miss Morrison. In a sworn statement made by witness, the following paragraph appeared: "It is my intention to deliver the said shares to the plaintiff on September 20, 1936, against payment of \$3,349.70."

Asked by Mr. Loseby, if it was his intention, witness replied that it was but he did not have the shares. He was going to buy the shares and had made arrangements.

Mr. Loseby: What were the arrangements?

Witness: My relatives were going to buy the shares. Asked for names, witness stated that he would rather not disclose them but when requested by his Lordship to answer the question, witness said that it was his brother, Choa Po Min.

Mr. Loseby: How much was it going to cost him?—Over \$20,000.

\$20,000 PRESENT

He was going to make you a present of \$20,000?—That was the arrangement made. That was on September 3. I did not deliver these shares because my brother changed his mind. I did not tell my solicitors that it was my brother who promised to buy the shares but I told them that it was a certain party. I told them, on September 20, or may be a day before.

Mr. Loseby: You swore in your affidavit that it was your intention to come round and make that offer. Don't you think that in common decency when you changed your mind you should have written to the other side and told them?

Witness: I think my solicitors did write.

Do you now think that your statement was not truthful?—The facts were true. I did not have one cent to pay Miss Morrison. I had no binding contract.

I am putting it to you that that statement was grossly dishonest. —No. I made every effort.

NO WRITING

Witness admitted that he knew the compradors custom and that there was always a profit and loss account reduced in writing. There was no writing and no letter in witness's case. Witness had no correspondence with his uncle who died a wealthy man in 1932 or 1933 and probate was taken in the Supreme Court.

Witness stated that his uncle died before he (witness) lost a million dollars. The deceased's executors was his (deceased's) son who was then working in witness's department. The executors were willing that the property should remain as security in the bank.

Mr. Loseby: was the executors duty to come to you to see that there was a proper agreement?—Yes.

And you are very much older than they are—Yes. I am older than my nephews. I did not see that my nephews did their work properly. There was absolutely no agreement. I did not pay back my uncle's estate. The loss was to a value worth \$125,000. I did not put that down in my statement of affairs.

PARTNERSHIP AGREEMENT

Mr. Loseby: Why not?—Because that was a partnership agreement.

Mr. Loseby: Quite. Thank you. Now where is the partnership?

Witness: The losses were limited to \$125,000.

Mr. Loseby: It is again a most extraordinary position, most unique.

Witness agreed that it was unusual.

Mr. Loseby: If there was a true partnership and if I can recover any money from your partners it will go to the creditors. In the person of my nephews.

Witness admitted that he had not mentioned one word about it to the Official Receiver.

NEPHEW'S NAME

Replying further, witness said: My nephew is Choy Hon Siu. He left the bank three or four years ago and I don't know where he is. I have not seen him. I dealt with him as the sole executor. I don't know the name of his mother.

Mr. Loseby: Come, come, Mr.

THE EASTER MESSAGE

Rev. A.J. Bennitt's Address

A very pleasant meeting was held at Glenelg last night by the St. Paul's Church Fellowship, when the Rev. A. J. Bennitt gave an address on "The Easter Message."

In delivering his address, Mr. Bennitt said that the resurrection of Christ was the basis of Christianity. He explained this by using as an illustration the disciples of Jesus, who deserted Him like cowards and broken-hearted men with no hope ahead of them on Good Friday when Jesus was to be crucified, but upon the resurrection of Christ they were filled with hope and happiness, and after the Holy Ghost had been bestowed on them, they went out with new enthusiasm and courage to preach the Gospel of Christ even at the cost of their lives.

Mr. Bennitt added that the spread of the Gospel of Christ lies not on the responsibilities of a few individuals but on the whole body of Christians, just as the well-being of a person depends not on any particular part of his body, as a hand or leg, but on the proper functioning of all the parts.

Among those present at last night's meeting was Mr. George She.

EUROPEANS IN MOTOR MISHAP

Car Collides With Bridge Rails

A motor accident occurred at 6 p.m. yesterday when a car, driven by Mr. Woolley, Sanitary Inspector, ran into the rails of a narrow bridge near the Tai Wai Village, Shatin. The vehicle was badly damaged, and was put out of running order.

Both the driver and Miss Aslett received facial injuries, while Inspector Simpson, of the Sanitary Department, who was also in the vehicle, had a narrow escape. Detective Inspector Cunningham, who by chance drove that way, conveyed the party to the Kowloon Hospital where Mr. Woolley was detained.

HEALTH RETURNS

Three cases of typhoid, two of diphtheria and one each of small-pox and dysentery were notified to the local Health authorities on Friday.

Choa. I wish you can be a little more fair with me.

Mr. Loseby then asked: You have been one of the wealthiest men in the Colony?—Yes.

And one of the most hospitable. Your entertainments have been famous. I don't know that.

You did not start life as a wealthy man?—No.

When did you first have large sums to spend?—Fully twenty years ago.

Witness admitted that he had bought jewels as a present to his wife; also pictures but these had been mortgaged to Dr. Kew, by bill of sale. The jewellery had since been sold because witness was not earning any income for the whole of last year. Witness gave his wife small sums of pocket money. He did not put away any money in his wife's name or relatives.

FURNITURE SOLD

Mr. Loseby: I thought the furniture was sold by Dr. Kew?

Witness: It was a matter in Dr. Kew's hands. The furniture in the house belong to Dr. Kew. The balliffs came in but they did not sell it.

Mr. Prentis mentioned that if he took the security from Dr. Kew he would have to pay \$3,000. The furniture had been assessed and the value was less than \$3,000.

Witness: I was not a party to the arrangement whereby the furniture should stay in my house. It was a friendly arrangement. My son, who is compendore at the bank, is paying the rent. I live there.

Mr. Loseby: Do you know who is financing your son?—No.

Mr. Prentis: I have no questions. Subject to the production of books and papers by the debtor the further hearing was adjourned to the next Bankruptcy Session.

CHINA'S NEW FOUND STRENGTH

(Continued from Page 1)

Mr. Yoshida warns his countrymen against regarding the progressive trend of affairs with indifference, and urges immediate action to improve Sino-Japanese relations—the abandonment of a "strong" policy, and the adoption of one which is not only practical but acceptable to China.

This outspoken declaration by a Japanese banker engaged in business in China, following upon the many bitter denunciations of Japan's policy which have been made recently in the Diet, and followed in turn by the appointment of a new Minister of Foreign Affairs in Tokyo who has described the Japanese "superiority complex" as the greatest obstacle to reaching an understanding with China—all these things go to suggest that the gradual hardening of "sand" into "cement" is coming to be recognized as a demonstrated fact, and a change which has to be reckoned with by all who are in any way interested in or affected by the trend of China's affairs.

EXTERNAL PRESSURE

A further point of considerable importance is the Japanese banker's recognition of the fact that external pressure has been largely responsible for expediting this hardening process, which in turn completely refutes the contention which has been frequently put forward by Chinese critics—some impatient and others merely jealous—that the policy followed by the National Government since the crisis of 1931 has been weak and vacillating, and that some of its most responsible leaders have been "pro-Japanese" passively, if not actively.

The truth of the matter is that the only hope of China's "sand" being turned into "cement" was to gain time for that process to take place. Sand can be scattered like chaff even by a light summer breeze, but if time can be gained to use that sand for making cement, a structure can be erected which will withstand the most devastating typhoon.

ATTITUDE MODIFIED

It has been said that China's foreign policy—and more especially her attitude toward Japan—has undergone a marked change during the past year. To some extent that is true, and it is also true that Japan's attitude toward China has been modified, to the extent that the terrific pressure brought into operation six years ago has been relaxed. There was a moment when China's position was so desperate that the very existence of the National Government was in danger of collapse. There was a period when scores of urgent telegrams, passing between Mr. Wang Ching-wei, President of the Executive Yuan, General Chiang Kai-shek, Chairman of the Military Affairs Commission, and General Ho Ying-chin, Minister of War, clearly revealed to the readers of these messages the appalling weakness of China's position, threatened within by armed Communist forces and without by a foe whose tremendous strength was overpowering. Desperate though the situation was at that time, Mr. Wang Ching-wei—far from being ready to surrender to Japanese aggression—told the Central Party authorities that he was prepared to take full responsibility for the consequences of immediate armed resistance and opening hostilities, but he warned his colleagues of the Central Executive Committee and Central Political Council what the probable consequences of such a decision would be. If, however, with full knowledge of the facts laid before them, they decided that the moment had come to resort to warlike measures, he as President of the Executive Yuan was prepared to carry out their instructions.

(To be continued.)
